MEMORANDUM FOR THE DIRECTOR

1. Attached are seven draft memoranda of appreciation to the most immediately deserving of the Indochina brethren. (As you will note, all are variations on essentially the same theme.) I could have added at least as many more, but these in my opinion will concentrate written praise where it is most warranted. If these notes are what you want, please have [redacted] on preferred stationery, format and other final typing details. I would suggest that the signed finals be sent to Proctor for routing to the ultimate recipients down through their respective command chains.
